INSTITUTE

**In step with
the latest
technological
advancements
for the surgical
and medical
treatment of
all your foot
and ankle needs**

When it comes to state-of-the-art medical care, more people are putting their feet in our hands.

From ordinary foot and ankle care to major sports injuries, the **Podiatry Foot & Ankle Institute** is getting people from every walk of life back on their feet! We provide all the technical knowledge and experience to deliver a fitting medical solution, no matter how complex.

The Human Foot... A work of art subject to more injury than the entire body.

Our feet support our entire body and are subject to pressure and stress from every-day activity. This accumulated pressure and stress can lead to bunions, ingrown toenails, sports injuries or even painful foot and ankle deformity. The **Podiatry Foot & Ankle Institute** is leading the way in cutting edge technology and treatment modalities that will effectively solve these problems.

We offer the ultimate in compassionate care...

At the **Podiatry Foot & Ankle Institute**, we pride ourselves in providing trained medical professionals who are not only technically proficient, but also caring. We like to put an emphasis on looking at medical problems from the patient's point of view to better understand their needs. We make your comfort our first priority, treating you as a whole person and not just a patient.

The **Podiatry Foot & Ankle Institute** is a larger scale hospital-based organization designed to provide complete family foot and ankle care ranging from children to adults and geriatrics.

WE TREAT FOOT, REARFOOT AND ANKLE
including but not limited to:

- **Ankle instabilities**
- **Achilles tendon pathology**
- **Ankle arthroscopies**
- **Complex fractures / crush injuries of the foot and ankle**
- **Fusions of the foot and ankle**
- **Arthritic foot and ankle care**
- **Diabetic limb salvage**
- **Sports medicine – adults and children**
- **Bunions, hammertoes, heel pain and heel spurs**
- **Onychomycosis-fungus, plantar warts, corns/calluses**
- **Diabetic foot and ankle care**
- **Non-invasive pain and neuropathy treatment using neuromuscular stimulation**
- **Non-invasive pain lasers or light therapy**
- **Orthotics arch supports**
- **Cortisone injections**
- **Low-exposure in-office digital x-rays, office diagnostic ultra-sound**
- **Laser therapy for nails and warts**

Highly Trained, Board-Certified Physicians

The **Podiatry Foot & Ankle Institute** sets itself apart from others through its providers' experience and training.
